Course Webpage: <http://math.arizona.edu/~calc>

Text: *Calculus*, Fourth Edition by Hughes-Hallett et al. published by Wiley.

Attendance: Students are expected to attend every scheduled class and to be familiar with the University Class Attendance policy as it appears in the General Catalog. It is the student's responsibility to keep informed of any announcements, syllabus adjustments or policy changes made during scheduled classes. Students are expected to behave in accordance with the Student Code of Conduct and the Code of Academic Integrity. The guiding principle of academic integrity is that a student's submitted work must be the student's own. University policies can be found at <http://dos.web.arizona.edu/uapolicies>.

Homework/ Quizzes: Homework will be submitted through a computer grading program called WebAssign. Student accounts can be purchased on-line at <http://www.webassign.net> or through the UA Bookstore. Your login and initial password will be provided by your instructor. Deadlines and point values for each assignment will be posted in your class account when you login. Late homework submissions will not be accepted. Hand-written homework and in-class quizzes may also be given. A final homework/quiz score based on 100 possible points will be assigned.

In-Class Exams: The four in-class exams are scheduled for **Wednesday, September 12; Monday, October 8; Friday, November 2; and Friday, November 30**. Each exam will be worth 100 points. There will also be a 50 point Preliminary material exam given on **Tuesday, August 28**. This exam will cover algebraic skills that are essential for success in Math 124. An on-line review can be found at <http://prep.math.lsa.umich.edu/pmc>. All electronic devices, particularly cell phones, must be turned off during all exams. Silence and vibration modes are not allowed.
Final Exam: The final exam is a common department exam worth 200 points. It is scheduled for **Monday, December 10 from 2:00 – 4:00 pm**. Additional information and a study guide can be found at <http://math.arizona.edu/~calc>. The University's Exam regulations for final exam week will be strictly followed. The regulations can be found at <http://www.registrar.arizona.edu/schedule074/exams/examrules.htm>.

Calculators: A graphics calculator is an important tool that will be used in this course. Students are expected to have a working calculator for each exam. No calculator swapping is permitted during exams. Calculator programs can be found at <http://math.arizona.edu/~krawczyk/calcul.html>.

Grades: The total number of points available on tests and homework is 750. Grades will be no lower than those set forth in the following table

$675 \leq \text{points} \leq 750$	90% to 100%	A
$600 \leq \text{points} \leq 674$	80% to 90%	B
$525 \leq \text{points} \leq 599$	70% to 80%	C
$450 \leq \text{points} \leq 524$	60% to 70%	D
$0 \leq \text{points} \leq 449$	0% to 60%	E

Students with disabilities:

If you anticipate issues related to the format or requirements of this course, please meet with your instructor to discuss ways to ensure your full participation in the course. If you determine that formal, disability-related accommodations are necessary, it is very important that you be registered with Disability Resources (621-3268; drc.arizona.edu). You should notify your instructor of your eligibility for reasonable accommodations by Friday, August 31. You and your instructor can then plan how best to coordinate your accommodations.

Students withdrawing from the course:

If you withdraw from the course by September 14, the course will be deleted from your enrollment record. If you withdraw from the course by October 12, you will receive a grade of W. The University allows withdraws after October 12, but only with the Dean's signature. Late withdraws will be dealt with on a case by case basis, and requests for late withdraw with a W without a valid reason may or may not be honored.

Incompletes:

The grade of I will be awarded if all of the following conditions are met:

1. The student has completed all but a small portion of the required work.
2. The student has scored at least 50% on the work completed.
3. The student has a valid reason for not completing the course on time.
4. The student agrees to make up the material in a short period of time.
5. The student asks for the incomplete before grades are due, 48 hours after the final exam.

Makeup Exams/Quizzes/HW:

If you miss an exam or quiz, you must present a valid reason within one week. Reasons but be "documented excuses" such as a serious illness or a family death. There will be very few valid reasons for missing an exam or quiz, so do not miss one then come later expecting to be given a makeup. If you know in advance that you will miss an exam or quiz, please email me or come see me so we can discuss your options. Never assume you will be allowed a makeup exam or quiz. There will be no makeup HW assignments or late assignments. You will be given plenty of time for each assignment.

General Information:

We will follow the schedule on the Calc I web page as closely as possible. Please refer to the *Other Links* section on the Calc I web page for additional help, such as tutoring, calculator programs, and handouts. The information in this handout is subject to change. You will be notified in class if there are any changes.
