

Are you interested in working with K-8 students?
Do you want experience working in multicultural classrooms?
Are you interested in the teaching and learning of mathematics?
Are you interested in gaining research experience?

***Undergraduate Research Assistants (URAs)
Needed during the Fall 2008 semester
For the Center for the Mathematics Education
of Latinos/as (CEMELA)***

Description: The Center for the Mathematics Education of Latinos/as (CEMELA), funded by the National Science Foundation, is an interdisciplinary, multi-university consortium focused on the research and practice of the teaching and learning of mathematics with Latino students in the United States. The Center is currently hiring students to participate in research activities related to the goals of CEMELA.

Compensation is \$12.00 per hour

We encourage bilingual (English/Spanish) / Education & Math students to apply

Time Commitment: Up to 10 hrs. per week

Job Duties: URAs will provide a variety of activities that may include fieldwork in local schools (working with children, teachers, and parents), and support of other aspects of the research (e.g. transcription, data entry, etc.). Training will be provided. As needed, applicants are expected to provide transportation to and from participating schools.

To apply for the position:
