

Joceline Lega

Department of Mathematics
 University of Arizona
 Tucson, Arizona 85721-0089, USA
<http://lega.uazmath.org/>

Education

Elève	Ecole Normale Supérieure, Paris	Physics	1984-1988
Licence (B.S)	Université Pierre & Marie curie, Paris	Physics	1985
Maîtrise (M.S)	Université Pierre & Marie curie, Paris	Physics	1985
DEA	University of Nice, France	Dynamical Systems and Turbulence	1986
	Diplôme d'Etudes Approfondies, post-graduate degree		
Doctorat (PhD)	University of Nice, France	Theoretical Physics	1989
	Thesis title: <i>Topological defects associated with the breaking of time translation invariance</i>		

Professional Appointments

2017 – present	Professor, Department of Epidemiology and Biostatistics, College of Public Health, University of Arizona
2006 – present	Professor, Department of Mathematics, University of Arizona
1997 – present	Assistant Professor, Associate Professor, and Professor, GIDP in Applied Mathematics, University of Arizona
2000 – 2006	Associate Professor, Department of Mathematics, University of Arizona
1997 – 2000	Assistant Professor, Department of Mathematics, University of Arizona
1997 – present	On leave without pay from CNRS (French National Center for Scientific Research)
1993 – 1997	Chargée de Recherche 1ère classe at CNRS, Institut Non Linéaire de Nice
1989 – 1993	Chargée de Recherche 2ème classe at CNRS, Laboratoire de Physique Théorique, Nice, France

Administrative Appointments

2016 – present	Coordinator, Postdoctoral Mentoring Program, Department of Mathematics, University of Arizona
2009 – 2013	Director, Institute for Mathematics & Education, University of Arizona
2008 – 2011	Director, Program in Integrated Science, University of Arizona
2007 – 2009	Assistant Director, Institute for Mathematics & Education, University of Arizona

Visiting Positions

Fall 2004	Visitor, Fields Institute for Research in Mathematical Sciences, Toronto, Canada
1994 – 1997	Visiting Assistant Professor, Department of Mathematics, University of Arizona

- Fall 1993 Research Associate, Department of Physics and Applied Physics, University of Strathclyde, Glasgow, UK
- Oct-Dec 1991 Post-doctoral fellow, Department of Applied Mathematics and Theoretical Physics, University of Cambridge, UK
- Jan 90-Jun 91 Visiting Assistant Professor, Department of Mathematics, University of Arizona

Honors & Awards

- First place, DARPA Forecasting Chikungunya Challenge, May 2015
- Fellow of the Institute of Physics (London), since 2004
- UA Department of Mathematics Lovelock Award, Spring 2006
- National Academies Education Fellow in the Life Sciences for 2005 – 2006

Editorial Boards

- Editor-in-Chief, *Physica D: Nonlinear Phenomena*, since January 2008
- Editorial Board member, *Nonlinearity*, January 2004 – December 2015
- Editorial Board member, *Physica D: Nonlinear Phenomena*, January 2004 – December 2007

Research Interests

- Modeling of nonlinear phenomena, with applications to physics and biology
- Pattern formation and instabilities
- Dynamics and stability of coherent structures

Synergistic Activities

- Co-organizer, *Sixth International Conference on Mathematical Modeling and Analysis of Populations in Biological Systems*, 2017, University of Arizona, Tucson
- Co-organizer, 2011 Conference on *Geometric Methods for Infinite-Dimensional Dynamical Systems*, Brown University, Providence
- Co-organizer, 2009 and 2010 IM&E Workshops on *Mapping the Calculus Curriculum*, University of Arizona
- Director, 2007 Arizona Summer Program on *Mathematical Modeling*, University of Arizona
- Co-chair, 2006 SIAM conference on *Nonlinear Waves and Coherent Structures*, Seattle
- Co-organizer, 2003 Workshop on *Patterns in Physics* at The Fields Institute, Toronto, Canada
- Co-organizer, SIAM Mini-symposium on the *Validity of Envelope Equations*, 2005 SIAM Conference on Applications of Dynamical Systems, Snowbird
- Organizer, SIAM Mini-symposium on the *Dynamics and Stability of Coherent Structures*, 2003 Joint Mathematics Meeting, Phoenix

Professional Memberships

- American Association for the Advancement of Science (AAAS)
- American Mathematical Society (AMS), 2004-2014
- Association des Anciens Elèves, Elèves et Amis de l'Ecole Normale Supérieure
- Institute of Physics (IOP)
- Program in Applied Mathematics, University of Arizona
- Society for Industrial and Applied Mathematics (SIAM)

Service to the Profession

- Member, Electorate Nominating Committee, AAAS Section A (Mathematics), 2015 – 2018
- Member-at-Large, AAAS Section A (Mathematics), 2011 – 2015
- Member, Nominating Committee, SIAM Activity Group on *Nonlinear Waves and Coherent Structures*, 2012 & 2014
- Member, *Kruskal Lecture Prize Selection Committee* (SIAM), 2011
- Chair, 2011 *Math Awareness Month* National Committee
- Chair (2008) and member (2007), *AWM-SIAM Kovalevsky Lecture Prize Selection Committee*
- Chair, Nominating Committee, SIAM Activity Group on *Nonlinear Waves and Coherent Structures*, 2006
- Secretary, SIAM Activity Group on *Nonlinear Waves and Coherent Structures*, 2004 – 2006
- Reviewer for major journals in my area of research
- Reviewer for the National Science Foundation (NSF), the Engineering and Physical Sciences Research Council (EPSRC, UK), the US-Israel Binational Science Foundation (BSF), the Natural Sciences and Engineering Research Council of Canada (NSERC), the Netherlands Organization for Scientific Research (NWO), and Université Côte d'Azur (UCA)

Past and Current Funding

- 2015 – 2020: *DARPA Chikungunya Challenge Prize*, DARPA
- 2012 – 2013: *Intel Math National Training Agency: Revision of the Intel Math Curriculum*, Intel Foundation
- 2011 – 2012: *Intel Math National Training Agency*, Intel Foundation
- 2009 – 2011: *Intel Math National Training Agency*, Intel Foundation
- 2009 – 2015: *NSF GK-12: Graduate Students and Teacher Engaging in Mathematical Sciences (G-TEAMS)*, National Science Foundation
- 2008: *Laptops for the Program in Integrated Science*, Gateway Strategic Alliance Grant, The University of Arizona
- 2008 – 2011: *Explorations in Integrated Science: An Interdisciplinary Laboratory Course*, National Science Foundation (P.I. Gail Burd)

- 2007 – 2009: *Q-Bio: Integration of Quantitative Concepts into Introductory Biology*, National Science Foundation (P.I. Kate Dixon)
- 2006 – 2009: *Imaging of markers for skin cancer risk*, Arizona Biomedical Research Commission (P.I. Kate Dixon)
- 2004 – 2008: *Current problems in nonlinear dynamics: Macroscopic modeling of microscopic interactions and instability of coherent structures*, National Science Foundation
- 2003 – 2004: *Junior US-based Mathematicians at 03/04 Special Year at Fields Institute*, National Science Foundation
- 2003 – 2006: *New Mathematical Modeling Course*, TRIF (Technology and Research Initiative Fund), The University of Arizona
- 2000 – 2004: *Hydrodynamics of bacterial colonies*, National Science Foundation (U.S. – France Cooperative Research)
- 2000 – 2004: *Analysis and modeling of pattern formation in biological and physical systems*, National Science Foundation
- 1999 – 2000: *Hydrodynamics of bacterial colonies*, The University of Arizona Research Foundation
- 1997 – 1999: *Modeling of filament dynamics with applications to bacterial growths*, NATO Collaborative Research Grant (with A. Goriely and M. Tabor)
- 1994 – 1996: *Dynamic response, stabilisation, modulation and control of semiconductor lasers and laser amplifiers*, European Union

Publications

59 peer-reviewed publications (see <http://lega.uazmath.org/> for links to articles), listed below

3 articles in progress, not listed

11 articles in books, not listed

1. J. Lega, H.E. Brown, R. Barrera, *Aedes aegypti* (Diptera: Culicidae) abundance model improved with relative humidity and precipitation-driven egg hatching, to appear in J. Med. Entomol. (2017)
2. H.E. Brown, R. Barrera, A.C. Comrie, J. Lega, *Effect of temperature thresholds on modeled Aedes aegypti population dynamics*, J. Med. Entomol. in press (2017)
3. J. Lega and H.E. Brown, *Data-driven outbreak forecasting with a simple nonlinear growth model*, Epidemics **17**, 19-26 (2016)
4. N.D. Brubaker and J. Lega, *Capillary induced deformations of a thin elastic sheet*, Phil. Trans. R. Soc. **A 374**, 20150169 (2016)
5. N.D. Brubaker and J. Lega, *Two-dimensional capillary origami*, Phys. Lett. **A 380**, 83-87 (2016)
6. H. E. Brown, A. Young, J. Lega, T. G. Andreadis, J. Schurich, A. Comrie, *Projection of Climate Change Influences on U.S. West Nile Virus Vectors*, Earth Interactions **19**, 1-18 (2015)
7. N. D. Brubaker and J. Lega, *Two-Dimensional Capillary Origami with Pinned Contact Line*, SIAM J. Appl. Math. **75**, 1275-1300 (2015)
8. A. E. Lindsay, J. Lega, K. B. Glasner, *Regularized model of post-touchdown configurations in electrostatic MEMS: interface dynamics*, IMA Journal of Applied Mathematics, doi: 10.1093/imamat/hxv011 (2015)

9. A.E. Lindsay, J. Lega, K.B. Glasner, *Regularized model of post-touchdown configurations in electrostatic MEMS: Equilibrium analysis*, *Physica D* **280-281**, 95–108 (2014)
10. J.C. Lega, S. Buxner, B. Blonder, F. Tama, *Explorations in Integrated Science*, *Journal of College Science Teaching* **43**, 55-60 (2014)
11. D.E. Moulton and J. Lega, *Effect of disjoining pressure in a thin film equation with non-uniform forcing*, *Euro. Jnl of Applied Mathematics* **24**, 887-920 (2013)
12. A.E. Lindsay, J. Lega, F.J. Sayas, *The Quenching Set of a MEMS Capacitor in Two-Dimensional Geometries*, *J. Nonlinear Sci.* **23**, 807-834 (2013)
13. A.E. Lindsay and J. Lega, *Multiple Quenching Solutions of a Fourth Order Parabolic PDE with a Singular Nonlinearity Modeling a MEMS Capacitor*, *SIAM J. Appl. Math.* **72**, 935-958 (2012)
14. J. Lega, *Collective Behaviors in Two-dimensional Systems of Interacting Particles*, *SIAM J. Appl. Dyn. Sys.* **10**, 1213-1231 (2011)
Erratum: *SIAM J. Appl. Dyn. Syst.* **12**, 2093–2093 (2013)
15. S. Lafortune, J. Lega, and S. Madrid, *Instability of local deformations of an elastic rod: numerical evaluation of the Evans function*, *SIAM J. Appl. Math.* **71**, 1653-1672 (2011)
16. M. Herrera-Valdez and J. Lega, *Reduced models for the pacemaker dynamics of cardiac cells*, *Journal of Theoretical Biology* **270**, 164-176 (2011)
17. D. Moulton and J. Lega, *Reverse draining of a magnetic soap film - Analysis and simulation of thin film equation with non-uniform forcing*, *Physica D* **238**, 2153-2165 (2009)
18. J. Lega and T. Passot, *Hydrodynamics of bacteria colonies*, *Nonlinearity* **20**, C1-C16 (2007)
19. S. Lafortune and J. Lega, *Spectral stability of local deformations of an elastic rod: Hamiltonian formalism*, *SIAM J. Math. Anal.* **36**, 1726-1741 (2005)
20. J. Lega and T. Passot, *Hydrodynamics of bacterial colonies: phase diagrams*, *Chaos* **14**, 562-570 (2004)

59. P. Couillet, C. Elphick, L. Gil, and J. Lega, *Topological defects of wave patterns*, Phys. Rev. Lett. **59**, 884-887 (1987)

Invited Scholarly Presentations

96 invited scholarly presentations

Invited presentations in the last 5 years are listed below

1. *Touchdowns in one and two dimensions*, Applied Interdisciplinary Mathematics seminar, University of Michigan, 7 September 2012
2. *Touchdowns in one and two dimensions*; Special session on Nonlinear Waves and Patterns, 1084th AMS Meeting, University of Akron, Akron, OH, October 20-21, 2012
3. *Dynamics of a thin film equation with disjoining pressure and non-uniform forcing*; Special session on Geometrical Methods in Mechanical and Dynamical Systems, 1085th AMS Meeting, University of Arizona, Tucson, AZ, October 27-28, 2012
4. *Grain boundaries of the Swift-Hohenberg and regularized Cross-Newell equations*; Special session on Traveling Waves and Patterns, 10th AIMS Conference on Dynamical Systems, Differential Equations and Applications, Madrid, Spain, July 07-11, 2014
5. *How defects are born*; Organized session on Geometric Techniques in the Analysis of Traveling Waves, The Ninth IMACS International Conference on Nonlinear Evolution Equations and Wave Phenomena: Computation and Theory, Athens, GA, April 01-04, 2015
6. *How defects are born*; Session on Patterns in Complex Systems, The 1st Annual Meeting of SIAM Central States Section, Rolla, MO, April 11-12, 2015
7. *Modeling the spread of Chikungunya in in the Caribbean and Central America*; DARPA Chikungunya Challenge Finale, Washington, DC, May 12, 2015
8. *Capillary Origami*; Mathematics Colloquium, University of Central Florida, November 5, 2015
9. *Explorations in Undergraduate Education*; Seminar, University of Central Florida, November 6, 2015
10. *How Defects are Born*; Session on Pattern Formation in Nonlinear Systems, 2015 SIAM conference on Analysis of Partial Differential Equations, Scottsdale, AZ, December 7-10, 2015
11. *Defects in the Swift-Hohenberg Equation*; Session on Existence and Stability of Nonlinear Waves and Patterns, 2016 SIAM Conference on Nonlinear Waves and Coherent Structures, Philadelphia, PA, August 8-11, 2016

12. *Flu forecasting with EpiGro*; Seasonal Influenza Forecasting Workshop, Centers for Disease Control and Prevention, Atlanta, GA, August 31 – September 1, 2016
13. *The phase structure of grain boundaries*, 1126th AMS Meeting, College of Charleston, Charleston, SC, March 10-12, 2017

Service to the University of Arizona

- University
 - Faculty Senate: 2014-2015
 - University Promotion and Tenure Committee: senior co-chair (2011-2012), junior co-chair (2010-2011), and member (2009-2010)
 - University Learning Technologies Center Faculty Advisory Board: 2005-2009
 - Provost's Task Force on Core Mathematics: 2005-2006
- College of Science
 - Integrated Science Advisory Board, College of Science: 2007-2008
 - Grade Appeal Committee, College of Science: 1997-2002, 2014
- Department of Mathematics
 - Biomath Committee: 2006-2010
 - Computer Committee: 2001-2003 (chair)
 - Graduate Committee: 2005-2007, 2016-2017
 - Instructional Faculty Personnel Committee: 2012-2014
 - Lovelock Award Committee: 2006-2009
 - Peer-review Committee: 2012-2014
 - Personnel Committee: 2000-2002, 2008-2010, 2014-2015, 2016-2018
 - Planning Committee: 2009-2012, 2014-2015, 2016-2017 (chair)
 - Promotion and Tenure Committee: 2004-2005
 - Undergraduate Committee: 2005-2009
- Program in Applied Mathematics
 - Analysis and its Applications seminar: co-organizer, 2005-2007
 - Applied Mathematics Colloquium: co-organizer, 1998-1999, 2006-2007
 - Self-study Committee: 2001-2002
 - Admissions Committee: 2000-2001, 2016-2017
