            Friday 10:00 am – 2:00 pm
Textbook: Calculus Deborah Hughes-Hallett et al, J. Wiley,
Calculator: any programmable graphing calculator

Exams
The first of the three in-class exams will be worth 100 points. The next two will be worth 150 points. Make-up exams are not given. The two-hour Final Exam will be worth 300 points.
Exams may require a graphing calculator. No calculator swapping is permitted during exams.

Homework
Homework assignments will be worth 150 points. They are due on Mondays and contain the problems as listed in Homework Schedule from all the sections covered in the previous week.
These assignments are subjectm to changes announced in class. Assignments turned in late will be noted, but may not be graded for full credit. The actual grading will be done based on a choice of problems, not random but not known to students in advance either.

Grading
Your course grade will be based on the sum of your scores on the three in-class exams (total of 400 points), the Final Exam (maximum of 300 points), your 10 best homework scores (maximum of 15 points each), and your 10 best quizz scores (maximum of 15 points each). The maximum total score possible for the course is 1000 points.
