

Guidelines for Ph.D. Minor in STATISTICS

Name: _____

Minor Advisor: _____

Home Department/Program: _____

Address: _____

Phone: _____

E-mail: _____

Student ID Number: _____

(necessary in order for us to print your transcript)

In order to qualify for a Statistics Minor you must complete 12 units of graduate coursework *graded B or better* from the approved Statistics Minor list (available upon request), including the **required** course

- STAT 566/MATH 566 – Theory of Statistics.

(Note that STAT 566/MATH 566 has as a prerequisite STAT 564/MATH 564, which can also be applied towards the Statistics minor.)

Please list Courses you intend to complete or have completed for the Statistics Minor:

Course	Semester

Please return this form to Ms. Juli Riemenschneider (626-2770), Program Coordinator of the Statistics GIDP on the 2nd floor of the Keating Building, to be submitted for approval. You will be contacted once the form has been approved. When you prepare your Doctoral Plan of Study (DPOS), you will need to list above a minor advisor from among the ‘Regular’ Statistics faculty (list available online at <http://stat.arizona.edu>) and obtain signatures from this advisor and from the Director of the GIDP in Statistics. At that point we will also verify your GPA. Once your DPOS paperwork is submitted to the Graduate College, your minor will be officially listed on your transcript.
