

MATH 111 SURVEY

Please hand in on Thursday, January 8.

Name:

Hometown:

Something about yourself that you think is interesting:

What was the last math class you took? How long ago did you take it?

Describe your most memorably positive mathematical experience: (examples: a particular subject that you found interesting, a concept you were excited to be able to understand, a problem you were thrilled to be able to solve, a great teacher, and so on)

If you feel comfortable doing so, describe your most memorably negative mathematical experience:
