**Homework and Quiz Policy**

Homework and quizzes will be worth 150 points of your grade as per departmental Math 110 policy. There will be no “extra credit”.

Written and online homework will be given. Late homework will not be accepted for credit. In addition, there will be some in-class quizzes. Students absent without an excuse will get a zero.

To allow for a few unforeseen absences, several of the lowest homework and quiz scores will be dropped when the overall homework grade is computed. In case of an extended illness, special arrangements may be made at the discretion of the instructor.

Homework scores will be based on completeness, correctness, and neatness. Although not all assigned problems will be graded, students are expected to do the entire assignment. The grade will depend on both the answers *and* the solutions leading to them. Finally, legibility and clarity of exposition will contribute to the grade.

Students are encouraged to collaborate with each other on homework assignments. Students are also encouraged to seek help from tutors and the instructor. However, anything that is turned in must be the student’s own work.
