Course Webpages: https://d2l.arizona.edu for access to course content information and materials, http://math.arizona.edu/~calc for general information and additional resources.

Text: Chapter 1 of *Calculus Single Variable, 5th* ed. by Hughes-Hallett et al. Published by Wiley. This chapter is available free of charge for all students registered in Math 122A and is posted in your course D2L page under the Content link.

Calculators: A graphing calculator is an important tool that will be used throughout this course. We recommend any model in the TI-83 or TI-84 series. Models that can perform symbolic calculations (also known as CAS) are NOT allowed on exams and quizzes. CAS models include (but are not limited to) the TI-89, TI Nspire CAS, HP 50g, and Casio Classpad 330. Students are not allowed to share calculators during exams and quizzes.

Attendance: You are expected to attend every scheduled class and to be familiar with the University Class Attendance policy as it appears in the General Catalog. It is your responsibility to keep informed of any announcements made during scheduled classes, by email, or through D2L. You are expected to behave in accordance with the Student Code of Conduct and the Code of Academic Integrity. The guiding principle of academic integrity is that your submitted work must be your own. University policies can be found at http://deanofstudents.arizona.edu/policiesandcodes.

Homework: (50 points) A computer grading program called WebAssign will be used for homework problems assigned from the text. WebAssign access to Math 122A assignments is free of charge for all students registered in Math 122A. Additional work such as written homework, worksheets, or quizzes will also be given. Your instructor will provide specific information. A final homework score based on 50 possible points will be assigned.

To access your class WebAssign account, go to http://webassign.net, click on the Log-In button, then click on the I Have a Class Key button. Class keys begin with the word arizona (all letters lower case) followed by two four-digit numbers unique to your section. You will find your Class Key in D2L. If you have used WebAssign in a previous course, you can use the same username and password.

Final Exam: (200 points) The final exam is a common department exam. It is scheduled for Wednesday, January 30 from 4:00 – 6:00 pm. Additional information and a study guide can be found at http://math.arizona.edu/~calc. All university excused time conflicts should be reported to your Math 122A instructor within the first week of class.
**Grades:** Course grades are determined by a percentage of the total possible points (250 points) in the course. A: 100-90%  B: 89-80%  C: 79-70%  D: 69-60%  E: 59-0%.

A grade of C or higher is needed to continue registration in Math 122B, First Semester Calculus. If you do not receive a grade of C or better you will be administratively switched out of Math 122B and into a Math 120R class. Grades will be posted in UAccess by Friday, February 1. It is your responsibility to check your grades and your class schedule.

In order for the Mathematics Department to accommodate all students moving into Math 122B and Math 120R, the time of your originally scheduled Math 122B section may change. If you are administratively switched to Math 120R, there is no guarantee that the time your section meets will be the same as your originally scheduled Math 122A or Math 122B.

**Students with disabilities:** If you anticipate issues related to the format or requirements of this course, please meet with your instructor to discuss ways to ensure your full participation in the course. If you determine that formal, disability-related accommodations are necessary, it is very important that you be registered with Disability Resources (621-3268; drc.arizona.edu). You should notify your instructor of your eligibility for reasonable accommodations by Monday, January 14. At that point, you and your instructor can plan how best to coordinate your accommodations.

**Students withdrawing from the course:** You may withdraw from the course with a deletion from your enrollment record through January 15 using UAccess. You may withdraw with a grade of "W" through January 19 using a change of schedule form with your instructor’s signature. (Due to administration office closures, the change of schedule form must be submitted by January 18.) If you withdraw from Math 122A you will be administratively removed from Math 122B.

**Incompletes:** The grade of I will be awarded if all of the following conditions are met:
1. You have completed all but a small portion of the required work.
2. You have scored at least 50% on the work completed.
3. You have a valid reason for not completing the course on time.
4. You have agreed to make up the material in a short period of time.
5. You have asked for the incomplete before grades are due, 48 hours after the final.
