Friday 10:00 am – 2:00 pm
Textbook: *MultiVariable Calculus* McCallum et al, J. Wiley,
Calculator: any programmable graphing calculator

In-Class Exams: Wednesday, September 14
Thursday, October 13
Wednesday, November 2
Thursday, December 1
Final Exam: Monday, December 12, 2:00 – 4:00 pm

The first of the four in-class exams will be worth 100 points. The next
three will be worth 150 points. Make-up exams are not given. The two-hour Final Exam
will be worth 200 points.

Exams may require a graphing calculator. No calculator swapping is
permitted during exams.

Homework
Homework is a very important part of the learning process. There will
be random quizzes based on the homework assignments. They will be worth 150 points.
The problems appearing in the homework schedule with an asterisk
will be collected for credit worth 100 points. The homework assignments are due on
Mondays. These assignments are subject to changes announced in class. Assignments
turned in late will be noted, but may not be graded for full credit.

Grading
Your course grade will be based on the sum of your scores on the four
in-class exams (total of 550 points), the Final Exam (maximum of 200 points), your 10 best
homework scores (maximum of 10 points each), and your 10 best quizz scores (maximum
of 15 points each). The maximum total score possible for the course is 1000 points.

Withdrawal
Students withdrawing from the course before October 14 will receive
the grade W if they are passing at the time.
