MATH 109 Section 3 Final Exam Information

Directions: Below you will find a list of important items pertaining to the rules and procedures of the final exam. Read this list carefully. If you have questions about any of the items on this list, you need to contact me immediately.

1. The final exam is on **Monday May 7th, 2007 from 8:00 am to 10:00 am in CESL 102**. The final exam for this course is a common final exam. This means that all students who are enrolled in MATH 109 will be taking this exam on the same day and time. As such, final exams of this sort take precedence over other final exams. Exams that conflict with the final exam for MATH 109 need to be rescheduled with the instructor(s) of the course(s) that are conflicting with this one. If you are unable to reschedule, then you’ll need to see me immediately. **DO NOT WAIT UNTIL THE DAY OF THE FINAL TO INFORM ME THAT YOU HAVE A CONFLICT!**

2. The final exam is worth 200 points of your semester grade. It is a closed book and closed note exam. The exam will consist mainly of multiple choice questions (≈ 30-35 questions worth 150 pts) along with several free response questions (≈ 3-6 questions worth 50 pts). The free response portion of the exam will require that you show your work and/or clearly explain your answer. Please make sure you blacken your answers on the answer sheet for the multiple choice portion of the exam as well as circle your answers on your exam booklet. You will NOT need any additional scratch paper for this exam. There will be adequate space on the exam to do any scratch work you need.

3. Because the exam will begin promptly at 8:00 am, it is important that you arrive at the exam location NO LATER THAN 7:45 am. During this time we will be seating students by section, distributing exam materials and filling out the exam and answer sheets. Students who miss this time because they are late will NOT receive any additional time to complete their exam. You also will NOT be allowed to take the exam if you arrive after 9:00 am

4. If you finish your exam early, you will NOT be allowed to leave the room before 9:30 am. You also will NOT be allowed to take out any other materials for studying in other courses if you finish early. The only items you are allowed to have on your desk during the exam are:
   - Test
   - Answer Sheet
   - #2 pencil and eraser
   - Calculator (taken out of its case)

5. Seating for the exam will be by section. You will sit in every other chair in each row of the room.

6. Please make sure you bring your student ID card to the exam.

7. It is YOUR responsibility to make sure you have a working calculator for the exam. If you do not have one during the exam, none will be provided for you.

8. Your calculator is to be cleared of all programs except for the QUADRATIC and EVALUATE programs. Students whose calculators contain programs other than the ones stated are in violation of the University Academic Code of Integrity and are subject to disciplinary action by the university. I will be doing random checks of your calculator.

9. All pagers and cellular phones MUST BE TURNED OFF & PUT AWAY DURING THE ENTIRE EXAM.

10. The Final Exam Study Aid will be posted on the College Algebra website for viewing and/or downloading. The formulas that appear on the study aid will be the same formulas that appear on the final exam.
